Invesco FTSE All-World UCITS ETF (the "Fund") A sub-fund of Invesco Markets II plc (the "Umbrella Fund") Acc (ISIN: IE000716YHJ7) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is a passively-managed Exchange-Traded Fund ("ETF"), which aims to achieve the net total return performance of the FTSE All-World Index (the "Index")¹, less fees, expenses and transaction costs.
- To achieve the investment objective the Fund will employ sampling techniques to select securities in the Index which may include but are not limited to index weighted average duration, industry sector weights, country weights, liquidity and credit quality. The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is USD. The portfolio-hedged Share Class currency is CHF. To minimise exposure to fluctuations in the exchange rate between the portfolio-hedged Share Class' currency and the base currencies of the Fund's underlying holdings, the portfolio-hedged Share Class enters into foreign exchange transactions (typically FX forwards).
- **Dividend Policy:** This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the United States Federal Reserve System is open. Please refer to the prospectus for further information.
- **The Index:** The Index is a subset of the FTSE Global Equity Index Series ("GEIS") which aims to capture over 98% of the world's investable market capitalisation. The Index is composed of the companies in the GEIS that are classified as large or mid-capitalisation and which originate from either Developed or Emerging Market countries. Securities eligible for inclusion in the Index include but are not limited to, common stock, ordinary shares and preference shares and securities ineligible for inclusion in the Index are convertible preference shares (ahead of conversion) and loan stocks. The index is market capitalisation weighted such that there is no weighting bias to specific countries or sectors. The Index is rebalanced on a semi-annual basis.
