iShares Blockchain Technology UCITS ETF

A sub-fund of iShares III plc

USD Accu

ISIN: IE000RDRMSD1

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the NYSE FactSet Global Blockchain Technologies Capped Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed, and aims to invest so far as possible and practicable in the equity securities (e.g. shares) that make up the Index.
- ▶ The Index measures the performance of globally listed companies that are involved in the research, enablement, development and deployment of blockchain and cryptocurrency technologies and applications which comply with the index provider's size, liquidity and free-float criteria.
- ▶ Securities of companies whose primary business is the research, development, and deployment of blockchain technologies, mining and transacting of cryptocurrency, as well as broader use cases of blockchain beyond cryptocurrencies are categorised as Tier 1. Securities of companies that design and manufacture graphics processing unit (GPU) chips necessary for the validation ("mining") of blocks in the blockchain network and securities of companies whose ancillary businesses are the blockchain technologies and applications (as described in respect of Tier 1 above) are categorised as Tier 2.
- ▶ The Index aims to have at least 75% of Tier 1 securities subject to capping of individual security weights (12% in respect of Tier 1 securities, provided that the cumulative weight of Tier 1 securities whose weights are greater than 4.5% does not exceed 45%, and 4% in respect of Tier 2 securities) and additional capping of securities deemed to be less liquid in accordance with the index provider's criteria.
- ▶ The Fund intends to replicate the benchmark index by holding equity securities, which make up the Index, in similar proportions to it. The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective. FDIs (including FX contracts) may be used for direct investment purposes.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated seven due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Investments in the technology securities are subject to absence or loss of intellectual property protections, rapid changes in technology, government regulation and competition.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - Blockchain companies may be subject to more volatility and less trading volume than securities of companies in more established industries, and blockchain companies involved in cryptocurrencies may be adversely affected by fluctuations in, and manipulation of, price of cryptocurrencies. Certain features of blockchain technology may increase the risk of fraud or cyberattack.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

| One-off charges taken before or after you invest | |
|--|---------|
| Entry Charge | None* |
| Exit Charge | None* |
| This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out. | |
