iShares Fallen Angels High Yield Corp Bond UCITS ETF

A sub-fund of iShares IV plc

GBP Hedged (Dist) Share Class

ISIN: IE00BDFK1680

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment through a combination of capital growth and income on the Fund's assets, which reflects the return of the Bloomberg Barclays Global Corporate ex EM Fallen Angels 3% Issuer Capped Index (Index).
- ▶ The Share Class, via the Fund is passively managed, and aims to invest so far as possible and practicable in the fixed income (FI) securities (such as bonds) that make up the Index and comply with its credit rating requirements. If the credit rating of a FI security is downgraded or upgraded such that it is no longer eligible for inclusion in the Index, the Fund may continue to hold it until it ceases to form part of the Index (where applicable) and it is practicable to sell it.
- ▶ The Index measures the performance of fixed and floating rate, sub-investment grade bonds, issued by corporate issuers in developed markets. The bonds will, at the time of inclusion in the Index, have a rating of between BB+ and B- (inclusive), or equivalent as provided by at least one of three credit rating agencies: S&P, Moody's and/or Fitch. The Index will use one rating where only one rating is available, the lowest rating where two ratings are available and middle rating where three ratings are available. The Index currently includes sub-investment grade corporate bonds denominated in US Dollar, Euro, Sterling, Swiss Franc, Danish Krone, Norwegian Krone and Swedish Krona. The bonds included in the Index will be bonds that at one point in their trading history were investment grade and have since been downgraded to sub-investment grade according to the methodology used by the Index provider. Such bonds may not necessarily have been investment grade at issue but would have been subject to at least one downgrade event, to sub-investment grade, at the time of their inclusion in the Index. Such bonds may be referred to as "Fallen Angels". The bonds must have a minimum time to maturity of 1 year. The Index is market-value weighted with an issuer cap of 3%.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These may include the strategic selection of certain securities that make up the Index or other FI securities which provide similar performance (with matching risk profile) to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes.
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be distributing shares (i.e. income will be paid on the shares quarterly).
- ▶ The Fund's base currency is US Dollar. Shares for this Share Class are denominated in Sterling. The performance of your shares may be affected by this currency difference.
- ▶ Your shares will be "hedged" with the aim of reducing the effect of exchange rate fluctuations between their denominated currency and the Fund's underlying portfolio currencies. FDIs, including FX forward contracts, will be used for currency hedging purposes. The hedging strategy may not completely eliminate currency risk and, therefore, may affect the performance of your shares.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

– Non-investment grade fixed income securities are more sensitive to changes in interest rates and present greater 'Credit Risk' than higher rated fixed income securities.

- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
