iShares MSCI EMU IMI Screened UCITS ETF

A sub-fund of iShares IV plc

EUR (Dist) Share Class

ISIN: IE00BFNM3C07

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Funds' assets, which reflects the return of the MSCI EMU Screened Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed, and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, that make up the Index.
- ▶ The Index measures the performance of a sub-set of equity securities which are part of the MSCI EMU Index (the "Parent Index") which excludes companies from the Parent Index based on the index provider's environmental, social and governance ("ESG") exclusionary criteria.
- ▶ The Index excludes companies from the Parent Index which are defined by the index provider as: being associated with controversial and nuclear weapons; producing tobacco or civilian firearms; or deriving their revenues from the following activities: thermal coal based power generation, the distribution, retail and supply of tobacco related products, the distribution of civilian firearms, fossil fuel extraction, the production or distribution of palm oil, or the extraction of arctic oil and gas. Companies that are classified as violating United Nations Global Compact principles are also excluded from the Index. The remaining securities are then weighted by their free-float adjusted market capitalisation.
- ▶ The Index also excludes companies which do not meet the minimum MSCI ESG Controversy Scores to be eligible for inclusion in the Index. Companies may, where necessary, be further excluded in order for the Benchmark Index to reach the level of the reduction of carbon emission intensity relative to the Parent Index set by the index provider.
- ▶ The Investment Manager will take into account the above ESG criteria only when selecting the securities to be held directly by the Fund. The Fund may also obtain indirect exposure to securities considered not to satisfy these ESG criteria.
- ▶ The Parent Index measures the performance of large and mid-capitalisation stocks across developed markets countries in the European Economic and Monetary Union (EMU) which comply with MSCI's size, liquidity, and free-float criteria.
- ▶ The Fund adopts a binding and significant ESG integration approach to sustainable investing i.e. the Fund will integrate ESG information into investment processes to achieve a higher weighted average environmental rating of the Fund compared to the Parent Index.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index which may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities including financial derivative instruments ("FDIs") which may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be distributing shares (i.e. income will be paid on the shares semi-annually).
- ▶ Your shares will be denominated in Euro, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
 - ▶ The risk category shown is not guaranteed and may change over time.
 - ▶ The lowest category does not mean risk free.
 - ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
