The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

EMQQ Emerging Markets Internet UCITS ETF (the Fund) – Accumulating ETF Share Class

ISIN: IE00BFYN8Y92

A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The Fund seeks to track the price and yield performance, before fees and expenses, of the EMQQ The Emerging Markets Internet ESG-Screened Index (the “**Index**”).

The Index is governed by a published, rules-based methodology and is designed to measure the performance of an investable universe of publicly-traded, emerging market, ecommerce, internet retail and internet services sector companies.

To be eligible for inclusion in the Index, companies shall:

- derive a majority of their assets or revenues from internet and ecommerce activities in emerging markets from sectors including, but not limited to, companies in the following sectors: internet services, internet retail, internet broadcasting, internet media, online advertising, online travel, online gaming, search engines, and social networks
- meet the minimum market capitalisation and liquidity requirements.
- Be evaluated based on environmental, social and governance (ESG) screens, with any companies violating any of the ESG screens excluded from the index universe

The Index is rebalanced semi-annually.

Replication: Fund will employ a "passive management" (or indexing) investment approach and will seek to employ a replication or representative sampling methodology, meaning insofar as possible and practicable, it will invest in all of the securities comprising the Index.

Dealing: Shares of the Fund (“**Shares**”) are listed on one or more stock exchanges. Typically, only authorised participants (i.e., brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

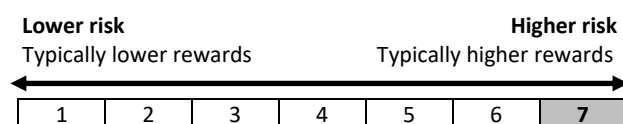

Distribution policy: Income received by the Fund’s investments will not be distributed in respect of the Shares of this class. Instead, it will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

Currency: The base currency of the Fund is US Dollar.

For full investment objectives and policy details, please refer to the supplement to the prospectus for the Fund (the “**Supplement**”).

Risk and Reward Profile

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (7) is due to the nature of the Fund’s investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Emerging market risk:** This Fund may invest in companies or securities markets in emerging market countries which may be riskier than investing in more developed countries.
- **Sectoral Risk:** The consumer discretionary sector can be significantly affected by, economic growth, worldwide

demand and consumers’ disposable income levels. The information technology sector can be significantly affected by, among other things, the supply and demand for specific products and services, the pace of technological development and government regulation.

- **Currency risk:** The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.
Risks not covered by the indicator, but which are materially relevant to the Fund include:
- **Tracking error risk:** The Fund's performance may not exactly track the Index. This can result from market fluctuations, changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.
- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.

For a complete overview of all risks attached to this Fund, refer to the section entitled “Risk Factors” in the Supplement and the Prospectus.
