A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The Fund seeks to achieve growth of capital over the medium to long term as its investment objective. The Fund invests primarily in equity securities, principally common and preferred stocks and equity related securities of companies of any market capitalisation. The Fund will invest at least 80% of its net assets, in securities of companies principally engaged in the research, development, production, or distribution of products and services related to the health care industry.

Health care companies may include, for example, manufacturers of health care equipment and supplies, health care services providers, pharmaceutical companies, biotechnology and life sciences companies, and suppliers of technologies for use by health care companies.

The following characteristics will be considered in the Fund’s construction:

- Superior company management;
- Significant insider ownership
- Unique market positions and broad market opportunities; and
- Solid financial controls and accounting processes.

The Fund employs an active management investment approach in order to achieve its investment objective.

Investment Policy: The fund employs an active management investment approach in order to achieve its investment objective.

Dealing: Shares of the Fund (“Shares”) are listed on one or more stock exchanges. Typically, only authorised participants (i.e., brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

Distribution policy: Income received by the Fund’s investments will not be distributed in respect of the Shares of this class. Instead, it will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (6) is due to the nature of the Fund’s investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Active Management Risk:** The Funds assets will be actively managed by the Investment Manager who will have discretion (subject to the Sub-Fund’s investment restrictions) to invest the Fund’s assets in investments that it considers will enable the Sub-Fund to achieve its investment objective. There is no guarantee that the Sub-

Fund’s investment objective will be achieved based on the investments selected.

- **Sectoral Investment Risk:** To the extent that the Fund invests a significant portion of its assets in the securities of companies of a particular sector, it is more likely to be impacted by events or conditions affecting that sector. The Fund may invest a relatively large percentage of its assets in particular sectors, including the healthcare and technology sectors
- **Currency risk:** The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund. Risks not covered by the indicator, but which are materially relevant to the Fund include:
- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund. It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions. For a complete overview of all risks attached to this Fund, refer to the section entitled “Risk Factors” in the Supplement and the Prospectus.
