Procure Space UCITS ETF– Accumulating (the Fund)

ISIN: IE00BLH3CV30

A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The Fund seeks to track the price and yield performance, before fees and expenses, of the S-Network Procure Space Index (the **Index**).

Index: The Index is governed by a published, rules-based methodology and is designed to measure the performance of a global investable universe of companies engaged in space-related business such as those utilising satellite technology. In addition to companies exclusively focused on space, the Index includes certain companies whose products and services span both space-related and other types of businesses.

Eligibility: To be eligible for inclusion in the Index, companies must meet the following criteria as set out in the supplement to the prospectus for the Fund (the **Supplement**):

- be engaged in one or more of the following sectors; satellite-based telecommunications; satellite transmission of television and radio content; rocket and satellite manufacturing; deployment, operations and maintenance of satellite equipment; space and technology hardware; and space-based imagery and intelligence services;
- be listed on one of the eligible exchanges as set out in the index guideline for the Index; and
- meet the minimum market capitalisation and liquidity requirements.

The Index is reconstituted and rebalanced on a semi-annual basis.

The companies in the Index are assigned a "Modified Market Capitalisation" (as described in the Supplement) weighting with a maximum weighting of 4.8% and 2.4% in the Non-diversified Tranche and Diversified Tranche (such terms defined in the Supplement) respectively.

Replication: The Fund will employ a "passive management" (or indexing) investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the securities in proportion to the weightings comprising the Index.

Dealing: Shares of the Fund (**Shares**) are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

Distribution policy: Income received by the Fund's investments will not be distributed in respect of the Shares of this class and instead income will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

Currency: The base currency of the Fund is US Dollar.

For full investment objectives and policy details, please refer to the Supplement.

Risk and Reward Profile

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (7) is due to the nature of the Fund's investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Investment risk:** Investment risk may be concentrated in specific sectors, countries, currencies or companies. This means that the Fund may be more sensitive to any localised economic, market, political or regulatory events.
- **Sectoral Risk: Aerospace and Defence Companies Risk:** Aerospace and defence companies can be significantly affected by government aerospace and defence regulation and spending policies due to the companies reliance on government demand for their products and services.
- **Communication Services Risk:** Companies in this sector may be affected by industry competition, substantial capital requirements, government regulation, cyclicity of revenues and earnings, obsolescence of communications products and services due to technological advancement, a potential decrease in the discretionary income of targeted individuals and changing consumer tastes and interests.
- **Satellite Companies Concentration Risk:** The Sub-Fund is considered to be concentrated in securities of companies that operate or utilise satellites which are subject to manufacturing delays, launch delays or failures, and operational and environmental risks that could limit their ability to utilize the satellites needed to deliver services to customers.
- **Information technology and Internet Risk:** companies are generally subject to the following risks: rapidly changing technologies; short product life cycles; fierce competition; aggressive pricing and reduced profit margins; the loss of patent, copyright and trademark protections; cyclical market patterns; evolving industry standards; and frequent new product introductions. Internet companies have exceptionally

high price-to-earnings ratios with little or no earnings histories and may experience extreme fluctuations in price and volume, unrelated to their operating performance.

- **Currency risk:** The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.
- Risks not covered by the indicator, but which are materially relevant to the Fund include:
- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange

or that the market price will reflect the net asset value of the Fund.

It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the Prospectus.
