Guinness Sustainable Energy UCITS ETF (the Fund)

ISIN: IE00BNC1F287

Accumulating ETF Share Class

A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The Fund has sustainable investment as its objective and aims to achieve long-term capital growth by investing in a global portfolio of equity or equity-related securities of companies involved in sustainable energy or energy technology sectors. The sustainable energy sector includes, but is not limited to, companies which generate energy from sources such as solar or wind power, hydro-electricity, tidal flow, wave movements, geothermal heat, biomass or biofuels.

The energy technology sector includes companies engaged in technologies that enable these sources to be trapped and also various manners of storage and transportation of energy, including hydrogen and other types of fuel cells, batteries and flywheels, as well as technologies that conserve or enable more efficient use of energy.

To achieve its investment objective the Fund will invest, in a manner consistent with the UCITS Regulations and Central Bank requirements, at least 80% of its net assets in a global portfolio of equity or equity-related securities of companies involved in the sectors referenced above and listed or traded on a Regulated Market set out in Appendix 1 of the Prospectus.

The Fund complies with the exclusion list of companies prepared by Norges Bank. ESG factors, such as government incentives and subsidies, urban pollution, energy security, and carbon taxation,

are incorporated into, both, the top-down and bottom-up stages of the investment process using (respectively) the Investment Manager's in-house global energy transition model, quantitative stock valuation analysis and qualitative ESG assessment.

Investment Policy: The Fund employs an active management investment approach in order to achieve its investment objective. However, the fund will use the MSCI World Index (the **Benchmark**) for performance comparison purposes. The Fund will not be managed to the Benchmark and may invest in securities not included in the Benchmark.

Dealing: Shares of the Fund (**Shares**) are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

Distribution policy: Income received by the Fund's investments will not be distributed in respect of the Shares of this class and instead income will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

Currency: The base currency of the Fund is US Dollar.

Risk and Reward Profile

Lower risk **Higher risk**
Typically lower rewards Typically higher rewards

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (6) is due to the nature of the Fund's investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Investment Strategy risk:** The screens used in connection with sustainable investing reduce the investable universe, which limits opportunities and may increase the risk of loss

during market declines. There is a risk that third party data provided by external data providers may be inaccurate.

- **Sectoral Investment risk:** To the extent the Fund invests a significant portion of its assets in the securities of companies of a sector, it is more likely to be impacted by events or conditions affecting that sector. The Fund may invest a relatively large percentage of its assets in specific sectors, including the sustainable energy and energy technology sectors
- **Active Management risk:** The Fund's assets will be actively managed by the Investment Manager who will have discretion (subject to the Fund's investment restrictions) to invest the Fund's assets in investments that it considers will enable the Fund to achieve its investment objective. There is no guarantee that the Fund's investment objective will be achieved based on the investments selected.
- **Currency risk:** The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.

Risks not covered by the indicator, but which are materially relevant to the Fund include:

- **Liquidity on secondary market risk:** There can be no certainty

that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.

It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0%*
Exit charge	0%*

Charges taken from the Fund over a year

Ongoing charges	0.65%**
-----------------	---------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

* Authorised participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. The Fund is currently not exercising its entitlement to apply entry and exit charges.

The Fund may engage in securities lending, whereby 70% of the revenues arising from securities lending will be returned to the Fund and 30% of the revenues will be retained by the Manager and securities lending agent.

Since the Fund is an ETF, secondary market investors will not typically be able to deal directly with HANetf ICAV. Investors buying Shares on exchange will do so at market prices which will reflect broker fees and/or transactions charges and bid-ask spreads as well as underlying company prices at the time of trading on the secondary market.

* Authorised participants dealing directly with the Fund will pay related transaction costs.

* For Investors dealing directly with the Fund, switching between sub-funds may incur a maximum switching charge of 3%.

** The ongoing charges are paid to the Manager which is responsible for discharging from its fee the cost of operating the Fund. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another investment fund.

Please see "General Charges and Expenses" and "Management Charges and Expenses" sections of the Prospectus and "Charges and Expenses" and "Key Information for Share Dealing" sections of the Supplement for further information about charges.
