Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund does not invest directly in the components of the index and its returns will be dependent on the performance of the derivatives used. **COUNTERPARTY RISK:** The fund may enter into one or more derivatives with one or more counterparties. If any of the counterparties fails to make payments (for example, it becomes

insolvent) this may result in your investment suffering a loss.

CONFLICTS OF INTEREST RISK: DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest.

NO GUARANTEE RISK: The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

SECTOR CONCENTRATION RISK: The fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets.

DERIVATIVES RISK: The derivative used to gain exposure to the index may be adjusted to reflect certain expenses in relation to taxes and/or buying, selling, borrowing, financing or custody costs. These replication costs may result in the fund and your investment suffering a loss.

RULES BASED INDEX RISK: The index is rules-based and is not capable of being adjusted to take into account changing market circumstances. As a result you may be negatively affected by, or may not benefit from, the lack of such adjustments in changing market circumstances.
