UBS MSCI Pacific Socially Responsible UCITS ETF, class USD dis (ISIN: LU0629460832)

a sub-fund of UBS (Lux) Fund Solutions SICAV

This fund is managed by UBS Asset Management (Europe) S.A., a part of UBS AG.

Objectives and investment policy

The Fund is passively managed and will take proportionate exposure on the components of the MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index (Net Return) either through direct investments in all or substantially all of the component securities and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. The Index is designed to measure the performance of best-in-class Environmental, Social and Governance ('ESG') companies based in 5 developed markets countries in the Pacific region while avoiding companies with negative social or environmental impact. This best-in-class approach excludes at least 20% of the least well-rated securities as against the standard index universe (for further details please refer to the index description in the prospectus which currently provides for an exclusion of 75% of the least well rated securities). The Fund does not benefit from a French SRI label.

The Fund will invest its net assets predominantly in shares, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus. This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Fund will not enter into any securities lending.

The return of the fund depends mainly on the performance of the tracked index.

- Currency hedged share classes may also be available in the sub-fund.

Investors other than Authorized Participants may not subscribe shares

directly with UBS (Lux) Fund Solution, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website www.ubs.com/etf. Direct redemptions with UBS (Lux) Fund Solutions are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with UBS (Lux) Fund Solutions under the conditions detailed in the relevant Authorized Participant Agreement.

This class distributes its net income in order to maintain the maximum tracking accuracy of the MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Index (Net Return).

Risk and reward profile

More about the risk category

- The risk category is based on the estimated future volatility of the fund. The method used for this estimate depends on the fund type and historical data.
- Historical performance is not a reliable indicator for future performance.
- The risk category allocated is not static and may vary over time.
- Allocation to the lowest risk category does not mean that an investment in this fund is free of risk.

Why is this fund in this Category?

The fund is in risk category 6 because the volatility of its returns is very high. The fund invests in equities and may therefore be subject to high volatility. This requires an elevated risk tolerance and capacity. The value of a unit may fall below the purchase price.

Further material risks

- The fund may use derivatives which can reduce investor risks or give rise to market risks as well as potential loss due to failure of counterparty.
- Every fund reveals specific risks, a detailed and comprehensive list of risk descriptions can be found in the prospectus.
- Sustainability characteristics and risks are considered as part of the Index selection process.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest¹

Entry charge	0.00% ²
Exit charge	0.00% ²
Conversion charge	3.00%

Charges taken from the fund over a year

Ongoing charges	0.28%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

¹ This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

² Investors who deal on secondary markets will pay fees as charged by their stock brokers. These fees are publicly available on exchanges on which the shares are listed and traded and may also be obtained from the relevant stock brokers.

The **ongoing charges** figure is based on the last twelve months prior to the preparation of this document. This figure may vary from year to year. It generally excludes:

- Portfolio transaction costs, except in the case of an entry/ exit charge paid by the sub-fund when buying or selling units in another collective investment undertaking

For more information, please see the charges section of the Fund's prospectus, which is available at www.ubs.com/etf.

Past performance

Performance in the past is not a reliable indicator of future results.

The chart shows the class's investment returns calculated as percentage year-end over year-end change of the class net asset value. In general any past performance takes account of all ongoing charges, but not the entry charge. If the sub-fund is managed against a benchmark, its return is also shown.

The class was launched in 2011.

The past performance is calculated in USD.

The benchmark against which the sub-fund is managed changed on 1 December 2020 and, as such, please note that performance prior to this date was achieved under circumstances which no longer apply.
