A Sub-Fund of ICBC Credit Suisse UCITS ETF SICAV (the "Fund")

Management Company: Carne Global Fund Managers (Luxembourg) S.A.

Objectives and Investment Policy

Objective

The Sub-Fund seeks to track the performance of the S&P China 500 Index (the "Index"). The Sub-Fund will invest directly in China domestic equity securities (including Stock Connect) through the RQFII license of ICBC Credit Suisse Asset Management (International) Co., Ltd. as well as equity securities issued globally by China companies outside of China. The Sub-Fund may also invest in financial derivative instruments for the purposes of hedging and efficient portfolio management in accordance with the UCI Law. The Sub-Fund does not intend to use financial derivative instruments extensively for investment purposes.

Principal Investment Strategy

The Sub-Fund is passively managed. The Sub-Fund will primarily make direct investment in transferable securities representing the constituents of the Index through a full replication strategy, and may also invest in equity equivalent securities as well as convertible bonds, warrants options, futures, P-notes and ETFs

which will provide indirect exposure to the securities included in the Index.

However, in circumstances where the liquidity conditions of the market prevent the Investment manager from using a full replication strategy, the Sub-Fund might optimize replication through representative sampling strategy.
