

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Amundi EUR Corporate Bond Climate Paris Aligned UCITS ETF Acc A Sub-Fund of the SICAV MULTI UNITS LUXEMBOURG

ISIN code: (A) LU1829219127

Managed by Amundi Luxembourg SA, a subsidiary of Amundi Group

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes among other characteristics ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Fund is an index-tracking UCITS passively managed.

The investment objective of the Fund is to track both the upward and downward evolution of the Bloomberg MSCI EUR Corporate PAB Select Index (the "Benchmark Index") denominated in Euro, while minimizing the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error").

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Benchmark Index is representative of the performance of the Euro denominated investment grade corporate bond market and which intends to meet and exceed the minimum standards of the EU Paris-aligned Benchmarks (the "EU PAB") required under delegated acts supplementing Regulation (EU) 2019/2089 amending Regulation (EU) 2016/1011 (the "Benchmark Regulation"). For further information on the exclusions applied by the Benchmark Index pursuant to the EU Paris-aligned Benchmarks, please refer to the "Guidelines on funds' names using ESG or sustainability-related terms" section of the Prospectus.

The Index methodology align with certain criteria such as:

- A minimum reduction in Greenhouse Gas (GHG) emissions relative to Parent Index of 50%.
- A minimum self-decarbonization rate of GHG emissions in accordance with the trajectory implied by Intergovernmental Panel on Climate Change's (IPCC) most ambitious 1.5°C scenario, equating to at least 7% GHG intensity reduction on average per annum.

The Index methodology is constructed using a "best performer approach": relying on Amundi's proprietary ESG methodology which aims to measure the ESG performance of an investee company that must perform with the best top three rating (A, B or C, out of a rating scale going from A to G) within its sector on at least one material environmental or social factor. Material environmental and social factors are identified at a sector level. Factors identified as material result in a contribution of more than 10% to the overall ESG score. The prospectus describes limitations of the methodology of the Benchmark Index through risk factors such as risk of the EU PAB label withdrawal or risk related to the carbon data used in methodology of the Benchmark Index. The limits of the approach adopted are described in the Sub-Fund's prospectus through risk factors such as Sustainable investment risk. The ESG score of companies is calculated by an ESG rating agency, using raw data, models and estimates collected/calculated using methods specific to each provider. Due to the lack of standardisation and the uniqueness of each methodology, the information provided may be incomplete. Assessment of sustainability risks is complex and may be based on ESG data which is difficult to obtain, incomplete, estimated, out of date and/or otherwise materially inaccurate. Even when identified, there can be no guarantee that these data will be correctly assessed. Additional information on the Benchmark Index may be found on the following website: <https://www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices/>

The Benchmark Index is a total return index. A total return index calculates the performance of the index constituents on the basis that any coupons or distributions are included in the index returns.

The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index. To optimize the Benchmark Index replication, the Fund may use a sampling replication strategy, and may also engaged in securities lending transactions. The potential use of these techniques is published on Lyxor's website: www.amundielf.com. Updated composition of the Fund holdings is available on www.amundielf.com. In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

Information on how the Index is consistent with environmental, social and governance characteristics is available in the prospectus.

The share currency is the Euro (EUR).

Dividend Policy : the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 3 years.

The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges, provided that the Market Makers can maintain market liquidity. Only authorised participants (e.g. selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

Lower risk, Higher risk,

Typically lower reward Typically higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in bonds issued by corporate entities and denominated in Euro.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Risk of Financial derivative Instruments: the Sub-Fund invest in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Sub-Fund may decrease significantly.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	Not Applicable for secondary market investors*
Exit charge	Not Applicable for secondary market investors*
Conversion charge	Not applicable

This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.

Charges taken from the Sub-Fund over a year

Ongoing charges	0.14%
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	None

The **entry**, **exit** and **conversion charges** shown are maximum figures applied on the primary market only. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the current year. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

The ongoing charges displayed are estimated. For each accounting period, the Sub-Fund's annual report will display the exact amount.

*Secondary Market: because the Sub-Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Sub-Fund nor the Management Company but to the investor own intermediary.

In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Sub-Fund will pay related primary market transaction costs.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: amundi.com or amundiETF.com.
