Amundi Global Memory Chips UCITS ETF Acc A Sub-Fund of the SICAV MULTI UNITS LUXEMBOURG

ISIN code: (A) LU2023678282

Managed by Amundi Luxembourg SA, a subsidiary of Amundi Group

Objectives and Investment Policy

This Sub-Fund is passively managed. The investment objective of Amundi Global Memory Chips (the "Sub-Fund") is to track both the upward and the downward evolution of the Solactive Global Memory Chips Index (the "Index"), denominated in US dollar (USD) and representative of the performance of a select set of companies from the Solactive GBS Global Markets All Cap USD Index PR (the "Parent Index") active in the memory chip industry, while minimizing the volatility of the difference between the return of the Sub-Fund and the return of the Index (the "Tracking Error"). The Index is representative of the performance of companies selected from the Parent Index (which provides exposure to large, mid and small cap stocks across developed and emerging countries), and which are active in the memory chip industry. The Index initial universe includes companies that derive from the Parent Index and that are subject to a minimum threshold of total market capitalization, free float market capitalization, and average daily traded value assessed over a defined look-back period. The Index is a Net Total Return Index: dividends net of tax paid by the index constituents are included in the Index return. More information about the composition of the Index and its operating rules are available in the prospectus and at: www.solactive.com. The Index value is available via Bloomberg (SOLGMMCN). The exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

The share currency is the US Dollar (USD).

Dividend Policy : the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges, provided that the Market Makers can maintain market liquidity. Only authorised participants (e.g. selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the prospectus of the UCITS.
